TRAINING FOR ALL DRIVERS · IBSS SAMPLE DATA

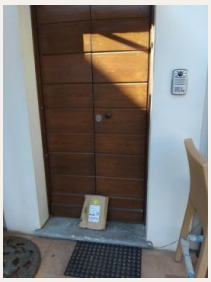

The photo on delivery — made simple

Based on Amazon "Photo on Delivery (POD)". Available in German, English, Spanish, Romanian, Ukrainian and Arabic.

The photo must show **two things**: **1 · THE PACKAGE** **2 · WHERE it is**

Last week **24 photos were rejected**: 16× no package visible, 5× photo blurry, 3× photo too dark.

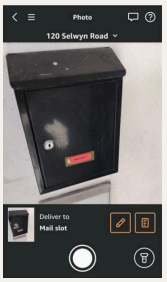

1 This is right

✓ **Package + door**

✓ **Package + ground**

✓ **Mailbox**

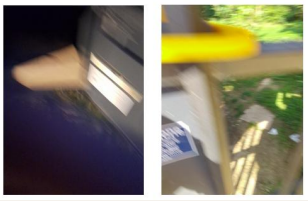

2 NOT like this

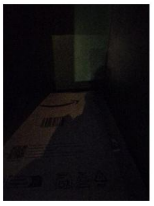

✕ **No package**

✕ **Too close**

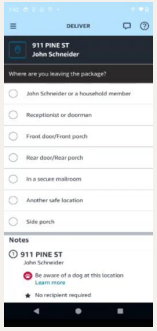

✕ **Blurry**

✕ **Too dark**

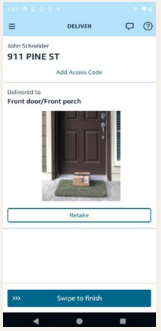

3 In the app — 4 steps

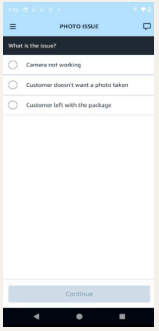

1 **Choose the spot**

2 **Take the photo**

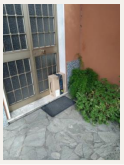

3 **Look at it**

4 **Not working? Help (?)**

4 Where is the package?

At the door

Photo: package **and** door.

In the mailbox

Photo of the mailbox. The package need not be visible.

Into the hand

Put the package down first. Photo of the package only. **Never the person!**

5 NEVER do this

- ✕ **Never photograph people**
- ✕ **Never faces or pets**
- ✕ **Never names or addresses***

* At a mailbox the name and address are allowed.

6 Remember 4 things

- **Take a step back**
- **Dark? Flash on**
- **Hold the phone still**
- **Check the photo, then go**

Sample report. All figures, names, transporter IDs, tracking numbers, postcodes and dates in this document are fictitious and serve only to illustrate the report format. No data of real clients, stations or employees is shown.
